

## ALTERSKILLSPRAXIS

[www.alterskillspraxis.com](http://www.alterskillspraxis.com)

Dear Sirs,

We would like to introduce you the **AlterSkillsPraxis** Project, a 24 months Project aimed at **improving the methodology in the School-Work Alternation Programme (Internship)**. The **AlterSkillsPraxis Project** has been developed by different European Partners from Italy, Spain and Finland, and it is funded by the European Commission under the Lifelong Learning Programme.

A law recently approved in Italy talks about the introduction, inside the secondary education, of programs that give students the opportunity to alternate periods of study with periods of work. AlterSkillsPraxis project managers have worked together with some secondary schools to develop and implement a methodology for the Internship program, which will cover the needs of all sectors involved in the project: schools, students and companies.
