

GUidance for **T**hose in **E**mployment

www.gute.hu

Dear Sirs,

We would like to introduce you the **GUTE Project –Guidance for Those in Employment (Workers’ Guide)** (www.gute.hu), a 24 months Project focused on **encouraging workers to receive training by providing them guidance and assistance within its own workplace**. The **GUTE Project** has been developed by 4 European Partners from Hungary, Spain, Greece and Sweden, and it is funded by the European Commission under the Lifelong Learning Programme.

The **GUTE Project** proposes innovative ways to provide guidance and assistance to unemployed people. It has been shown that giving workers an advice, as well as some guidelines to follow, can be achieved to increase their participation in training projects.

- Please visit our website www.gute.hu to read more about the project. In the **GUTE Project** webpage you can also download interesting documents developed by the partners.
